

**Thinks There Might Be Graft.**  
One of the Marshfield Aldermen recently introduced a resolution at a council meeting asking that the books of the city be audited, intimating that there might be some graft. The resolution caused quite a furor, although there is no reason why this should be. If the aldermen are honest there is nothing to fear, and if they are not they should be shown up.

Chas. Daly has placed an order for a Ford touring car with Huntington & Lewis.

**Will Study in Vienna.**  
Dr. Stephen A. Brazzau, who had been visiting his relatives in this city and vicinity for several days, left on Friday for Vienna, Austria. Mr. Brazzau intends to continue his studies in Medicine and Surgery and expects to spend several months in the old country. Mr. Brazzau has been making his home at Asotin, Washington for several years past.

**The Fall Term at the Grand Rapids Business College opens next Monday, Sept. 1st.**

**Wood County Normal to Open Sept. 9.**  
The Wood County Normal will open for regular work Tuesday, Sept. 9, 1913. Those wishing assistance in finding boarding places or places to work for board should come Monday, Sept. 8. M. E. Jackson, Principal, Grand Rapids, Wis.

**STILL NECK AND NECK**  
Grand Rapids and Nekeosa Tied For Last Place.

The games last Sunday did not make much change in the standing of the teams of the local league, outside of the fact that Grand Rapids and Nekeosa each went down a notch and Marshfield went up one. The standing of the teams is as follows:

|               | W. | L. | P.   |
|---------------|----|----|------|
| Stevens Point | 3  | 0  | 1000 |
| Marshfield    | 2  | 1  | 666  |
| Grand Rapids  | 1  | 3  | 250  |
| Nekeosa       | 1  | 3  | 250  |

Grand Rapids played at Stevens Point last Sunday and were cleaned up by the aggregation over there by a score of 9 to 5. They said it was a good game, but that does not get us anything. Things ran along pretty evenly up to the last half of the seventh inning, when the score was a tie at four each. Then the Stevens Pointers got busy and rapped out five in the last half of this inning and it was all over but the shouting, as our boys only got one more. Nelson pitched a pretty good game but did not get quite the support he was entitled to or the team might have been much closer.

Marshfield and Nekeosa played also on Sunday, the Nekeosa team being defeated by a score of 8 to 0. This pushed Marshfield up a notch in the list and Nekeosa down even with Grand Rapids.

**VILLAGES AND CITIES**  
UNDER 5,000 MAY GET  
STATE ROAD AID IN 1914.

Chapter 776 of the laws of 1913 extends the provisions of the state aid law to villages and to cities of the fourth class having a population of five thousand or less. It is provided in fourth class directly connecting portions of road then on the county system of highways shall be added to the county system of prospective state highways at the November meeting of the county boards.

Chapter 776 provides that villages and cities may vote or adopt subscriptions for the improvement of streets in them, even though these streets are not now on the system; and that if they are afterward put on the system of roads by the county board, the improvements can be made in 1914. Money for state aid improvements may be voted by the city council or the village board, and no special election is necessary.

As city councils and village boards may be legally called together on a few hours notice, it is still possible to vote or improve under state aid in 1914 prior to September 1st, 1913. These applications must be mailed to the county clerk on or before September 1st. The Wisconsin Highway Commission will furnish forms for application to any city or village upon post card request.

Officers of villages and cities should read carefully chapter 776 and subsections 2, 3, 4 and 5 of section 1317m-4 of the statutes, and also subsection 1 of section 1317m-4 of Chapter 668, Laws of 1913. Copies of these new chapters are on file in the county clerk's office.

**ALTDORF**  
Roland Steinley of Milwaukee is visiting at the F. Ruesch home.

There was a surprise party on L. J. Ruesch last Thursday evening. Miss S. T. Lewis and daughter Marion of Milwaukee and Miss Vance Crego of Oshkosh, Aunt of Mrs. Lewis, visited at the O. J. Leu home last week. Mrs. Lewis is a sister-in-law of Mr. Leu.

Geo. T. Rowland, of Grand Rapids chairman of the committee on immigration and agriculture of the county board was here last Friday looking for material to send to the state fair for exhibition purposes. He made arrangements with O. J. Leu to bring in all exhibits from this neighborhood so if you have anything in the line of farm products, as, grains, grasses, vegetables, fruits, etc., kindly inform Mr. Leu, or better yet, let it be packed about Sept. 2 as shipment will be made to Milwaukee about the 4th. Every body ought to send something for certainly we want to make a good showing for the county.

The school board have decided to dig a well in the school yard before school begins.

Gleason Schell of Grand Rapids has been visiting at the Ruesch and Peters' homes.

Prof. G. J. Baker and wife of St. Paul called on friends here Saturday afternoon and also inspected their farm over on the Hemlock.

Louis Amundson, county highway commissioner called to see O. J. Leu Tuesday about building the bridge across Elm Creek.

**Quack Grass.**  
Where a field is badly infested with quack grass it should be plowed from five to eight inches deep as soon as the hay or grain crop is removed, preferably early in August. All portions of the grass must be turned under. Within a few days the plow should be followed by a disc harrow with the discs set straight the first time over to avoid turning any of the sod. The discing should be repeated once or twice a week for six or eight weeks and occasionally after that until freezing weather.

The following spring cultivation should begin early, and be practiced every week or ten days until the middle of May, when the field may be planted to silage or fodder corn. Thorough cultivation of the corn should complete the eradication under favorable climatic conditions.

Short crop rotations are useful in keeping quack grass under control and when arranged so as to provide an opportunity to attack the quack grass at the right time, they will permit eradication of the weed without losing the use of the land. Andrew Boss, Agriculturist, University Farm, St. Paul.

**THE WALTER SEIZ.**  
Some folks are born graceful, others acquire it, while the rest of us poor mortals have it forced on us while eating spaghetti.

The man who would get engaged by correspondence without seeing his intended would just as soon fix his suspenders in front of a bay windy.

## THE STORY OF 'MADAM X'

"Madame X," that great mother love drama with Miss Alice De Lane as the woman, will be the attraction at the Daily Theatre soon. Jacqueline, the wife of Louis Floriot, is driven from her home of luxury because she had foolishly left him for another man, thus having happened about two years before the opening of the play.

She repents and comes back, but Floriot relentlessly orders her out of the house, keeping their son Raymond with him. A later scene, twenty years having expired, shows Jacqueline living as a miserable woman, compelled to seek forgetfulness in the use of opium and drugs and drifting through the days with any one who will support her.

Larouque, an adventurer with whom she is living enters on a scheme with two others to blackmail her former husband, a clever to his identity having been found by them.

Rather, than have her son learn of the infamy of his mother, Jacqueline, in a quarrel with Larouque kills him, and for the crime is arrested and taken to jail and is afterward given a trial. Raymond, her own son defends her. Recognition comes in the last act, the great Court room scene. His eloquent appeal to the jury saves the woman, but not her life.

She escapes or forgiveness from the son and obtains it, but fate, to punish her, grants only a few moments of a wrecked life in which to enjoy the last full measure of a devotion that is hers.

**CIVIL SERVICE EXAMINATIONS.**  
Madison, Wis., Aug. 27.—The following civil service examinations are announced by the state commission:

Sept. 20, at county seats, assistant secretary of Wisconsin Live Stock Breeders' association. Minimum age 21 years; salary \$1,000 to \$1,200 per annum.

Sept. 20, at county seats, bacteriologist, dairy and food commission. Salary, \$1,200.

Sept. 20, at county seats, dairy and food inspectors, four positions. Open to men only. Salary, \$1,200 per annum with traveling expenses.

Sept. 20, at county seats, examiner of casualty companies, office of commissioner of insurance. Salary \$1,200 to \$1,800.

Sept. 20, at county seats, examiner of health and accident insurance companies. Salary \$1,200 to \$1,800.

Sept. 20, at county seats, plumbing inspector state board of health. Open to men only. One or more positions. Salary not yet fixed, but probably from \$1,500 to \$2,000 per annum.

Sept. 20, at county seats, rate clerk, office of state railroad commission. Open to men only. Salary \$900 to \$1,500 per annum.

Sept. 20, at county seats, trained nurses, state institutions. Salary \$45 to \$50 per month with furnished room, board and laundry.

Sept. 20, at county seats, woman deputy working on problems arising between employer and employee, Wisconsin industrial commission. Salary \$300 to \$1,400 and traveling expenses.

Oct. 11 and following week at selected centers, carpenter. Occasional calls from the state university at 40 cents an hour, eight hours a day.

Oct. 11 and following week at selected centers, janitor, state university.

Oct. 11 and following week at selected centers, painter.

Oct. 11 and following week at selected centers, stenographers and typists.

Oct. 11 and following week at selected centers, teacher guard, Green Bay reformatory.

Nov. 15, at county seats, clerks, beginning with salaries of \$30 to \$100 per month.

Jan. 3, 1914, cadetship at the United States Military academy at West Point.

Jan. 3, 1914, cadetship at the United States Naval academy at Annapolis from the state at large.

Attendees caretakers of patients at hospitals for insane and feeble-minded.

## PRISONERS MUST WORK

Sheriff Must Hereafter Keep His Charges Busy.

A new law which has been passed by the state legislature and signed by the governor places the sheriffs of Wisconsin in a rather embarrassing position. Under the provisions of the law the sheriff must see that every prisoner sentenced to confinement in the county jail is employed at hard labor for which he must receive compensation.

The sheriff must see that such prisoners are steadily employed or they will be subject to a fine of \$100. In order that the sheriff may carry out the law it is provided that the roof of the jail shall extend to the limits of the county. Prisoners employed anywhere in the county will therefore technically be in jail. Where the prisoners are thus farmed out the sheriff will either have to send a deputy to guard them or take his chances on their getting away.

## Egbert-Damon

Miss Alma Egbert of this city and Wm. Damon of Madison were married this morning at 10:30 o'clock at the home of the bride's parents, Rev. C. A. Mellicke of the First Moravian church performing the ceremony. Miss Edith Damon was bridesmaid and Miss Bernice Egbert acted as maid of honor. Ed. Luckenbach was best man. The wedding march was played by Miss Lulu Hayes, and Miss Cecil Egbert sang a solo with violin obligato by Hugh Goggins. The home was artistically decorated in pink and white, which with the tasteful dresses of the bride and her attendants, made a most beautiful scene. At the conclusion of the ceremony a wedding luncheon was served and the happy young couple left this noon for Madison, where they will make their home.

Both of these young people are well and most favorably known in this city, the bride being the oldest daughter of Mr. and Mrs. R. G. Egbert of this city and a young lady of most estimable qualities. The groom, formerly married, has been a resident of Madison, where he is now in the employ of the state commission in the electrical service. They both have many friends here to wish them a happy journey thru life, and the Tribune unites with these in extending the heartiest of congratulations.

## Witte-Nord.

The marriage of Miss Minnie Witte and Mr. Carl Nord occurs this afternoon at 3:00 o'clock at the First Moravian church. Rev. C. A. Mellicke, pastor of the church to perform the ceremony. They will be accompanied by Miss Lillian Witte and Mr. Clarence Nord as bridesmaid and groomsmen.

Both of the contracting parties are well and favorably known in this city, the bride being the daughter of Mr. and Mrs. Albert Witte and a most estimable young lady. She is a graduate of our high school and for seven years past has been employed as compositor and machine operator in the Tribune office, proving herself an exceptional workman of far more than ordinary ability. The groom is an industrious and exemplary young man who has been in the employ of the Johnson & Hill company for some time past.

They have a host of friends in this city who will unite with the Tribune in extending the heartiest of congratulations and wishing them a long life of happiness.

## Back From Panama.

Mr. and Mrs. H. A. Vandenburg, who have been making their home at Panama, are visiting friends in the city for a few days. Mr. Vandenburg has been working for the government in the capacity of locomotive engineer during the past seven years. Mr. and Mrs. Vandenburg expect to go west before the expiration of their visit here.

## Ladies Aid Meeting.

The east side ladies aid society of the Congregational church will resume work for the year next week. The opening meeting will be held at the home of Mrs. A. L. Fontaine on Wednesday, September 3d. A cordial invitation is extended to the ladies to be present.

## Death of Orrin Gray.

Word was received here Monday of the death of Orrin Gray, a former resident of this city, but for several years past residing at Springfield, Mo. Mr. Gray was a veteran of the Civil War and is well known to the older residents of the city. At one time he was Clerk of Court of Wood county. He is survived by his wife and eight children, six girls and two boys.

**FOUND.**—On Friday last a pocket-book. Owner may have same by calling at Kaudy's Studio, proving property and paying for this notice.

The Tribune is in receipt of a post card from Atty. W. E. Wheelan which was mailed at Waukegan. Mr. Wheelan was on his way to Sand Point, Idaho, to visit his brother, Atty. E. W. Wheelan. He speaks very enthusiastically of the city of Waukegan and states that he is entirely free from hay fever.

A large vertical filing cabinet has just been added to the equipment of the Grand Rapids Business College for the use of students.

The largest water-power permit ever issued by the department of agriculture was signed by Secretary Houston, granting rights to the Pacific Light and Power Co. of Los Angeles to operate power plants in the Sierra National Forest. The company will carry electric power 240 miles to Los Angeles at 150,000 volts. The permit allows twelve years for construction. Four twenty-five miles of cement-lined tunnels will be built. Part of the power will be used for pumping water for irrigation in the upper San Joaquin valley. The power will be carried over a double steel tower line of aluminum cables.

Next Monday will be a good time to enroll at the Grand Rapids Business College. New classes will be formed in all departments.

**FOR SALE.**—My Maxwell, 5 passenger touring car, guaranteed to be in first class condition, at a bargain. O. R. Roenigk.

## AT THE STATE FAIR.

Indications That The Coming Event Will Outclass All Others.

In the arrangement of the general exposition program for the Wisconsin state fair, Milwaukee, September 8-12, the board of agriculture made a new departure, in setting aside a large part of the program to feature manufacturers and dealers. Tuesday, Sept. 9, has been designated as "Manufacturers and Dealers' Day."

On Tuesday, Manufacturers and Dealers' row will be the scene of many special programs for both amusement and demonstration of exhibits through out the day and evening. Special musical programs and lectures will be provided. Exhibitors of these lines are co-operating with the board and are arranging for feature displays on that day. Increased interest in this department throughout the state is shown by the entry list, practically all former exhibitors and many new ones having registered their demands for space.

The International Harvesting company has asked for 200 front feet of space, besides machinery space, and that is a fair criterion of the sentiment of all manufacturers this year. All is explained by the fact that mutual interests of farmers and manufacturers are rapidly becoming stronger as farmers come to use elaborate machinery and mechanical power in their regular work. An important division of this department will be the automobile exhibit, dealers in automobiles being anxious to show their latest designs to farmers who are important prospective buyers and many manufacturers have endeavored to complete their new models in time for display at the state fair.

Monday, September 8th, is the first day of the fair and as usual is designated as "Opening Day." The fair will be opened officially Monday morning at 9 o'clock with all exhibits in place and special programs will be provided for that day.

Wednesday has been designated as "State Day." The Governor and state officials will be special guests on that day and special addresses will be given at the grand stand, on the plaza and on different parts of the grounds. That being the exact centennial of Commodore Perry's naval victory on Lake Erie, Sept. 10, 1813 it is probable that portions of the program will be in recognition of the fact. The state championship spelling contest will take place on that day.

Thursday, September 11th, has been designated as "Milwaukee Day." A holiday will be officially declared and it is expected that all employers will close their factories and places of business for at least a half day. Milwaukee business men already are making preparations that are expected to result in new records for Milwaukee representation at the state fair.

Friday, September 12th, will be "Children's Day." On that day all children under 16 years of age will be admitted free when accompanied by parents, guardian or teacher. It is expected that special recognition of this day will be made by the Milwaukee public schools and that all records for children's attendance will be broken. Besides special programs, special efforts to instruct and entertain children will be made for all departments.

Several bands will be in attendance every day of the fair. Irwin Bros. Cheyenne Wild West show will give free programs every afternoon and night, and there will be stock parades, horse shows and special programs in the pavilions every day and night. The race program provides a good card for every day.

## COMING

The Vivaphone Singing and Talking Motion Pictures that have created a great furore in New York and London will be the attraction at the Daily Theatre, on September 4th.

When this London show was first announced in London there were many skeptics who doubted it would be possible to give a motion picture that could talk and sing. However, they were reminded that at one time people doubted the possibilities of the steamboat, and when the Wright brothers announced that they could fly in a heavier than air machine they were laughed at.

Cecil M. Hepworth of London, England, the inventor of the Vivaphone, had a long experience, and as it required a good sized fortune to put the invention in shape for a demonstration, it took a lot of persuasion on his part to interest enough capital to get it started. The first demonstration was made before a party of London newspaper men, and the stories they wrote about it amazed the English population. Even the King was interested and he commanded the inventor to give a performance before him.

The Vivaphone achieved the same, even greater success, in New York than in London, and is now running at several theatres on Broadway.

## Venison Comes Right.

Waukegan Sun.—It cost Frank Eckes, Ed. Putt and Nick Eckes, all of the town of Spencer \$96, to enjoy a few meals of venison during the closed season. On August 15 the first two named killed a deer and gave some of it to Nick Eckes. Game Warden Foster Thorn and Kregel were given a tip and went out to make an investigation. All that could be found of the venison was the remains of a stew which the three named had eaten. The three named refused to testify to the charges aggregating \$56. Spike, a dog owned by John Fehl had a breakfast of the stew after it had been exhibited in court.

## Brusk-Sonnenberg.

Miss Helen Brusk and Mr. John Sonnenberg, both of this city, were quietly married last Wednesday at the parsonage of the First Moravian church, Rev. C. A. Mellicke performing the ceremony. They were accompanied by Mr. and Mrs. Henry Fritz as witnesses. The young couple left the same morning for Stillwater, Minn., on a wedding tour, returning to this city yesterday, and will make their home on the west side. They have a large number of friends in this city who will unite in extending the heartiest of congratulations and wishing them a long life of happiness.

## PREPARING TO PAYE

City Teams Busy Getting Ready For The Brick Pavement.

The city force started in Monday morning on the street doing some preliminary work that will be necessary before the brick paving is done on the east side. It is the intention to tear up Vine and Oak streets and pave them with macadam that will be removed from Second street. One block of Second street south of Vine will also be paved in this manner, so that after the brick pavement is in a great deal of dirt will be kept from getting onto the pavement.

The Russell Construction company of Superior have signed a contract to do the brick paving on the east side, same to be completed by the middle of October. It is understood that the materials are on the way here and that they are now ready to commence the work.

## Hurt With a Pitchfork.

Daisy, the three year old daughter of Mr. and Mrs. Albert Bruns, and with a serious accident on Tuesday of last week by having the tine of a pitchfork enter her chest on the left side. She was brought to this city the day after the accident and placed in Riverside hospital, where she has been given the best of attention.

It seems that the little girl was following along behind a load of hay which her brother was pulling to the barn, and during the trip some of the hay fell off. The children's mother was with them and she had the boy stop and throw down a fork with which to pitch the hay back. The boy did the fork over the side of the load and the little girl, who was just going along by the side of the wagon, was struck.

Medical assistance was summoned from Nekeosa and the girl was subsequently brought to this city.

Mr. Bruns, father of the girl, is employed as foreman at the Grand Rapids Foundry Co's plant.

## Ford Car Makes Good Run

On Saturday one of the Ford car owners in this city left home at 10 o'clock in the morning for Green Bay, a distance of 115 miles. The car was a 1912 model and several suit cases. 40 minutes was taken at Wausau for dinner and twenty minutes at Dale, and the car landed in Green Bay on the west side at 5:30 making the run in about six hours on an average of over 19 miles per hour. The return trip was made on Sunday, with five people in the car and the car leaving at 10 o'clock Sunday morning and the car pulled in the city at 5:30, less about an hour on the road taking lunch and water. 12 gallons of gasoline was used in the run and two gallons of cylinder oil, at a total cost of \$2.60.

Remember this wonderful little car is sold by Huntington & Lewis at the remarkably low price of \$550. P. O. B. Detroit. Don't fail to get your order in and get some of the best running of the season from now on. 11—Adv.

## A Great Improvement.

Very few people realized the difference it would make in the appearance of things on the east side by widening Oak street, and notwithstanding the fact that the work at that point is not completed, things are taking on a decidedly different appearance.

Since the street has been widened at this point it will be possible to fix it up in better shape than has been the case heretofore, the street having been too narrow to allow it to be graded properly. While the cost is somewhat more for much less money now than it ever can in the future.

## Auction Sale.

An auction sale will be held at the Mike Miller place one and one-half miles southeast of the Randolph cemetery, on Wednesday, September 3d, commencing at 10 o'clock in the morning. Besides the livestock there are a large number of farm implements and other property. In case of storm this will be held the following day. Mike Miller, owner; Barry St. Denis, auctioneer.

## Chaunquin a Success.

The managers of the Chaunquin report that the affair just closed in this city was a complete success, although the attendance was not as large as is usual in a city of this size.

It is probable that had the tent been nearer the city it would have been more largely attended, although it was on the car line where it was readily accessible at all times.

## Some Fine Out.

James Garret of Milwaukee sent down to the Tribune office on Friday a bunch of hats that was raised on the James Hessel farm in that town. The stalks are fully five feet long and have large full heads and are about the most thing of the kind we have seen this year.

## Broke An Arm.

Donald Daly, son of Mr. and Mrs. John E. Daly, broke his right arm on Friday while engaged in cranking his father's automobile. A surgeon reduced the fracture and it is expected that he will soon be all right again, although unable to do much of anything for a time.

Mr. and Mrs. Hugh Missoll arrived in the city the past week from Spokane, Wash., where they have resided the past four years. After a two weeks visit with relatives in the city and town of Grand Rapids, they will leave for Hilder, Marathon county where Mr. Missoll expects to purchase an interest in a large general store which is at present owned by his brother-in-law, Nic Streveler.

An Antioch woman had in a bank five hundred and fifty dollars in bank money received on the death of her husband. A fair dealer called himself a clairvoyant found it out, "blaying upon" her superstition and credulity he induced her to invest in "Venice Airship" stock. When she went to withdraw her money the banker induced her to leave a hundred and fifty behind. The district attorney was alerted, ordered the bank to stop payment on the woman's certified check which he held, and thus saved the widow her little treasure.

## Johnson &amp; Hill Co.

GRAND RAPIDS, WIS.

## Grocery Specials

In our grocery department you will always save money. We are here to give you what you want, and always glad to show our customers new goods.

A few specials for Thursday, Friday, Saturday and Monday, Aug. 28, 29, 30, and Sept. 1.

| 2 cans Oil Sardines   | .10c   |

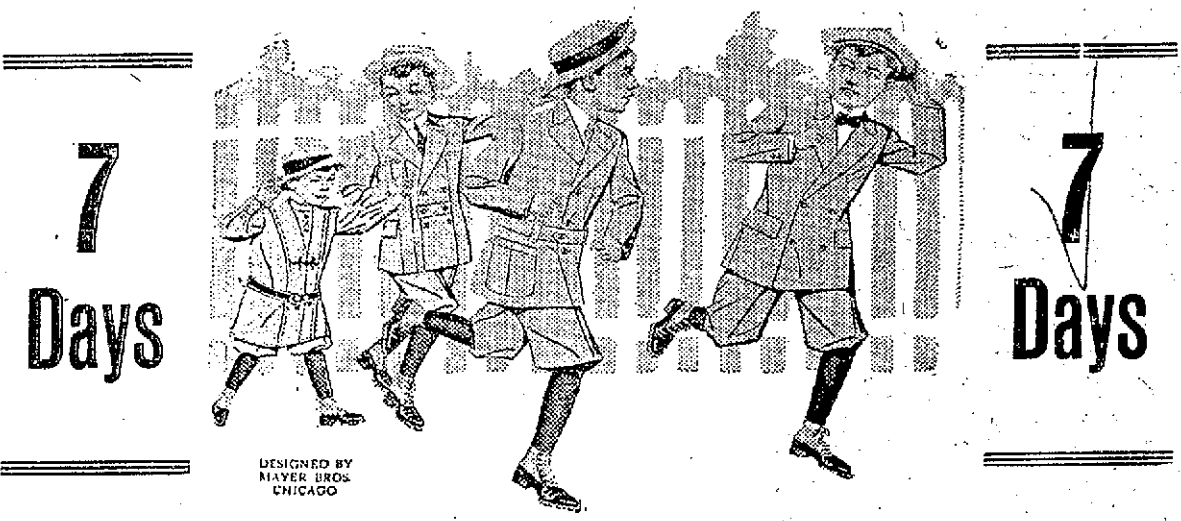

## Well-Dressed Women

recognize that the best materials and most careful tailoring cannot make a distinctive coat or suit unless the design has individuality.

That is one reason we purchase our garments from one of the largest manufacturers in the world. They employ high-class designers and even then, with all their care, offer for sale only about a quarter of the original designs. You notice when you call at the Ready to Wear Parlors that each garment has individuality—you will see little distinctive touches. You are sure to be impressed with the standard of general excellence of each garment. And it's on such coats and suits that the "Palmer Garment" trademark appears. You may depend on full value with style.

**I. E. WILCOX,**  
111 Fourth Avenue North

Advertising Rates—For display matter the rate of 10 cents an inch is charged. The columns of the Tribune are 24 inches long making a square. Additional lines cost 25 cents for each line. All local notices must be paid for in advance. All notices of 100 words or less are charged at the rate of 10 cents per line. All notices of 100 words or more are charged at the rate of 7 cents per line.

**TO RAISE BETTER POTATOES**  
Organization To Decide On Best Variety For Each Section And Avoid Mixing Evil.  
Definite steps will be taken to improve the standard of Wisconsin-grown potatoes and to secure more of the select seed and general market trade of the country when the potato growers of the state meet in Rhinelander in November in response to a call sent out by Prof. J. G. Milward of the College of Agriculture of the University of Wisconsin and secretary of the Wisconsin Potato Growers' Association. A state wide campaign has been started to encourage the raising of but one or at least a very few standard varieties in each community and then to prevent in every way possible the mixing of varieties, a practice which has done more than any other one thing to injure the reputation of Wisconsin-grown potatoes upon the leading markets and with the largest buyers of seed. With many of the potato men of the state the Burbanks of the long white type and the Rural New Yorker are the most popular varieties, as they are well adapted to the wide range of conditions to be found in the potato districts of Wisconsin. Other standard varieties do equally as well in various sections and can be as successfully grown and marketed if the majority of the growers will co-operate to grow but a very few of these varieties. The potato fields of the state, on the whole, are in a thrifty condition and give promise of abundant crops. In some of the red clay districts growers are having considerable trouble with "black leg," a bacterial disease, which, if not controlled, does much damage. They are finding the most effective remedy is to disinfect the seed with formalin. In all disinfected plants this helps to prevent the spread of the infection.

**RIGHT FROM THE SHOULDER**  
Under the caption, Do You Catch It, Sammers of the Madisonian throws this straight one:  
Read this, read the itemized fiscal burdens progressiveness is planning to lay on your backs this year and next; read it to your relation your neighbors and your friends; note the \$189,000 per year for our useless tax commission. Read it to your boys and girls, to your men servants, maid-servants, to your neighbors and to your neighbors' children. Cut it out of the paper and paste it in your hat, for you will not forget it, for it will come handy as some of its creators will surely come around to see you next year in hopes of getting your vote and it will be mighty convenient to have the little document where you can spread it under their noses.  
We are filling the mouths of our own householders with those of our own householders. We are raising too many fattened calves for our own fattening, well fed office prodigies. \$189,000 a year for a tax commission that isn't worth that many cents any place you put it. Do you wonder at soaring taxes? At the big slices local tax gatherers get out of their earnings each year? At the "progressiveness" but you are paying trust money for it. Is it worth the cost? If it is, wherein lies its value? Is it in the advertising we are getting, that which brings peddlars and estates to our state for a few days to hear our tongue-tied school masters prate about theories. These things do not lighten the burdens of make glad the heart of the tax payer.

**SWAT THE OLD ROOSTER**  
P. W. Helms, dairy and food commissioner of Michigan, issues the following bulletin:  
"With the season of hot weather, comes also the season of hot weather. The food laws of Michigan do not permit the sale of rotten eggs any more than they permit the sale of rotten meat or vegetables. Persons who sell rotten eggs are just as amenable to the food laws of the state as persons who sell other decayed food. From its construction, however, decay in the egg is not so easily discovered as decay in other food stuffs.  
"Why does an egg rot? It is because it is a fertile egg. Eggs that are not fertile do not rot. A hen can set three weeks on infertile eggs and every one at the end of that time will dry up but they will not rot.  
"What causes a fertile egg to rot? The fertile egg has in it the germ of life in a dormant state. When the temperature of that egg is raised above 95 degrees, incubation starts and the germ proceeds to take on life. If the temperature of that egg after it is chilled and dried, it becomes a dead chicken in embryo. Putrefactive processes set in, or, in common terms, the eggs rot. One good hot day in summer will start thousands of eggs to rot. Unless consumed within a short time these eggs will rot. A setting hen twelve hours on the eggs will do the same. This is why we have the rotten eggs in hot weather. In the spring the days are not warm enough to start incubation.  
"When we remember that only fertile eggs rot, the remedy for rotten eggs is simple. Produce none but infertile eggs during the hot months. This can be easily accomplished by removing the rooster from the flock after the middle of June, the hatching season has passed. The rooster is of no further utility in the flock. Then is the time to swat the old rooster. It is an economic waste to feed him further. He will bring a higher price than that of any other time. Make chicken pie of him or sell him to the summer resort. Any way swat him.  
The chickens will produce roosters for the next hatching season. Moreover, with the old hen, having no males with which to flirt and waste time on, will put in all her time and energy in egg production. She will produce more eggs without Mr. Rooster than with, and these infertile eggs will not rot. To our poultry keeping friends let us again say with emphasis as soon as the hatching season is over 'swat the rooster.' It may save you a fine and costs. It will likewise have a great moral effect in the prevention of profligacy, which occurs when a rotten egg blows up. It will be especially appreciated by stock companies in country towns. Remember, it is the old rooster that produces all the rotten eggs."

**Sounds Like a Good Law.**  
Senator Monk of Clark county has been instrumental in getting a bill passed regarding piling dirt in roads. It reads as follows: "It shall be unlawful for any highway superintendent or any other person having the supervision of the building, re-building or repaving of any highway to place any materials in the traveled tracks thereof, in piles or rows without leveling the same off before sunset of the same day or placing upon such piles or at both ends of such rows a red gas lamp or lantern lighted within one hour after sunset and containing sufficient oil or fuel to keep the same burning from dark until daylight; and in grading or repaving any highway it shall be unlawful for such highway superintendent or other person to place soil or gravel in the center or tracks thereof without rolling or otherwise bringing the same down to a smooth and even surface with the remainder of the travel track. Any person violating any of the provisions of this section shall be punished by a fine of not less than ten dollars nor more than a hundred dollars and shall be liable to a civil action for damages. The highway superintendent must have had some experience in bumping long over country roads where the annual 'fixing' has just been finished. A careful roadmaster, with the aid of a couple of assistants, a patent scraper and a couple of teams cut 'fix' almost any road so that it is practically impassable between season or two by simply scattering large masses of soil into the middle of the highway and leaving them there for the passing traffic to beat down into place. The law is a good one and should be enforced."

**THE KITCHEN CURE**  
You have no doubt seen the type of girl who sits in the hammock and reads novels while her mother washes the dishes or mends daughter's clothes. There is one family in an eastern city where the mother is a business woman who profits by the tariff. They employ three maids. But the other day, as the daughter got back home from finishing school, one of the maids gave notice and mother said to the Sweet Girl Graduate:  
"Here, my child, is a chance for you. Your father and I have been spending a lot of money on your education. The prime purpose of education for a woman is to qualify her to be the administrator of a home. You have had a good training in the theory of house-keeping, but you have not had the chance to put that theory under the test of practice. We can afford to hire another third maid, but we are not going to. You are to be the new third maid."

**NEW ROME**  
Harold Chinn of Grand Rapids was a guest of Miss Little Wahl on Sunday. Mrs. Mary Wahl and family leave this week for Treton, Iowa, where they expect to make their home.  
Mr. and Mrs. Will Leese spent Sunday at the Jim Vantassel home in Monroe Center.  
Mr. and Mrs. James Webb spent Sunday at the latter's parents home. Mr. and Mrs. P. Beske.  
The ball game here Sunday between one of Grand Rapids teams and New Rome was a hum game, the score being 19 to 2, in favor of New Rome. It did not even expect to win a game they better leave the fire water alone.  
Miss Ida Hurlburt returned home from Grand Rapids, where she has been working for Mrs. Frank Natwick.  
Chas. Cloffer left Saturday for Duluth, Minnesota.  
Miss Alice Gladstone has been a guest of friends in New Rome the past week.  
Dr. Norton and family of Grand Rapids were fishing here Sunday.  
P. C. Patefield delivered beef cattle to the Edwards meat market in your city Saturday.  
Miss Freda Hoef of this place took charge of the Barnum school Monday, August 18.  
The new school house in District No. 2 is nearly completed.  
Chas. Pike has a new barn recently completed on the farm he recently purchased of James Webb.  
Dick Blackburn is improving the looks of his place by having the house raised and an addition built on.  
The young people gave the Misses Alma, Bertha and Isabelle Thomas a farewell dance in the hall Saturday evening.

**PITTSVILLE**  
Al Smith went down to the depot last Thursday evening to meet the train. There is nothing astonishing in this. It is in the habit of going to the depot whenever he wants to. But on this particular day he went down to meet some ladies. Sisters, though, readers, and now we are getting down to what we wanted to say in the first place. Al is a big man, but he has got to grow some. He is not weight of 770. There certainly is a family in Wood county who could boast of this weight and it will make the old state of Wisconsin go some to furnish a equal match. It was all right when it was in the center of the city, but when they all got home over in the first ward the old town commenced to tip up at the other end.  
By the time the Record reaches its readers this week Warren has been putting it over people in this vicinity for two or three years on this marriage deal but now we have got him good and fast, and nothing but an earthquake will keep him from getting what is coming to him when he gets back to Pittsville tomorrow. He is to be married today at Seymour to Miss Mabel Willis, the daughter of the late Mr. and Mrs. George Willis. The bride and groom will be the bride's maid, Mr. and Mrs. George Pavell, parents of the groom, and Mrs. Laura Pavell, his grandmother, left yesterday to be in attendance at the event.

While the section crew were at work just south of the city Thursday of last week a notice of an animal near which was not common to this section. They decided it was a badger and commenced to lay plans to trap it. They circled about until they had it surrounded and brought it to bay by laying their shovels over it until a suitable enclosure could be brought in which it could be taken home. About this time a game warden appeared on the scene and demanded the animal in the name of the state. It was given to him, and if he does as he says he will with it, it will be placed in a zoo for the benefit of the public in some of the cities of Wisconsin.

**SIGEL**  
Otto Larson who is employed at Rockford, Ill. is here to visit relatives and friends for a few weeks.  
Miss Selma Krohn came home on Tuesday from Sherry where she has been employed.  
Elmer Moberg is doing carpenter work for Peter Moberg at Grand Rapids.  
Mrs. Fannie Finfield has returned to her home at Eau Claire after spending the summer here.  
Miss Sophia Lindstrom departed last week for Polk, Alabama, where she intends to spend the winter.  
Lee Nordstrom who is employed at Grand Rapids is enjoying a two weeks vacation at his home here.  
Miss Ida Kronholm came home on Friday from Merrill, where she has been visiting relatives for a week.  
Mrs. John M. Worlund and daughters Velma and Ethel of Grand Rapids Sunday with friends here.  
Mr. and Mrs. Jens Larson entertained a large number of relatives and friends for dinner on Sunday.  
Mrs. Sun Nystrum is home from Waupaca where she has been visiting relatives for a week.  
Elmer and Henry Johnson are home from Chicago having spent a few days there with friends.  
P. Y. E. S. met on Thursday evening, August 21, at the Jens Larson home. An entertaining program, was rendered. The society considers itself fortunate in being able to present to its members this high class program which was diversified enough to meet the expectations of all at present.  
Miss Ida Jacobson is spending the week at the C. Jensen home at Rudolph.

## LOCAL ITEMS.

Otto J. Leu of Aldorf was a business visitor in the city on Saturday.

Miss Clara Carlson left on Tuesday for Merrill to visit with friends for a week.

Miss Selma Johnson spent several days the past week visiting friends at Merrill.

Mrs. Fred Hirsch returned on Saturday from a week's visit with her parents at Merrill.

Mrs. George Delap and children are visiting with friends in Marshfield and attending the county fair.

William Peiz left for Chicago on Friday night where he will remain for a short time. He expects to leave for California later.

Mrs. Edna Armstrong, who has been on the road with a show troupe during several months past, is home to visit her mother, Mrs. J. Collier, for a time.

Mrs. A. W. Cutler and daughter, Mrs. John Gys and children Iva and Oliver of Kaukauna are visiting at the home of Fred Mosher and Lewis Baldwin.

Miss Lydia Juneau, who has been employed in the city office lady in Dr. Ed. Hougens' office for some time past, has resigned her position and gone to Neenah, where she has accepted a position as stenographer.

Barney St. Denis of Rudolph was a pleasant caller at this office on Monday. Mr. St. Denis reported that he has sold his farm to a party from Watertown, who will take possession October 15th. The farm is near Rudolph station and the consideration was \$5,500.

W. L. Getts spent Saturday and Sunday in this city visiting his family, after being out on the road a couple of weeks for the Mackinac wagon company. He left again on Monday for another two weeks trip. He reports that business is looking up all over the state in this line.

It is a real pleasure to watch the youngsters disport themselves in the swimming pool since it was completed, there being a good crowd there whenever the weather is at all favorable. The place is lighted at night with electric lights so that it can be used in the evening as well as the day time.

We have on hand at the Tribune office a number of Law Supplements and anybody who did not get one may have same by calling at the Tribune office. There was about a wagon load of the supplements and it might be possible that in getting out the mail somebody might have missed several.

Charles Fritz, who has spent several months past at Leonard S. D., returned to this city on Friday. Mr. Fritz states that the farmers out that way had pretty good crops this season, but that there has been a lot of rain since the grain was out and that this has helped them considerably in doing their threshing.

Our city fathers seem to be a little slow in finishing up the roads they have started in this city, there being a piece of street on both the east and west sides that has been closed for some time. We would humbly suggest that hereafter they should not start anything they cannot finish and to confine their efforts to one side of the river.

George and Archie McMillan returned home on Friday evening from a two weeks trip, during which time they visited at Lake Crystal, Minneapolis and Sandstone, Minnesota. They report having had a very pleasant time and say that crops seemed to be good wherever they went, although they were getting a lot of rain both at Lake Crystal and Sandstone.

Attorney Henry E. Fitch of Nekeosha was in the city on Saturday looking after some business matters. When approached on the subject of his appointment to a diplomatic position in South America, Mr. Fitch stated that he did not expect to accept anything of the kind even if it was tendered him, there being several reasons why he thought it would be better for him to stay at home and attend to business.

Mr. and Mrs. Wm. Boyce of Clinton, Iowa, arrived in the city on Friday for a visit with their friends here. Mr. Boyce formerly made his home in this city where he was engaged in the monument business, and still has many friends here. For several years past he has been located at Clinton, one of the thriving cities on the Mississippi, and reports that he is getting along nicely, a fact that his friends here will be glad to hear. They made a trip here in their Ford runabout and came through without any trouble.

Prof. M. H. Jackson returned on Saturday from Indiana where he had been conducting institute during the past two weeks. Mr. Jackson stated that while he was in Indiana the weather was so warm much of the time that it was almost impossible for those attending the institute to do efficient work, it being much hotter than we have it here, and the worst of it was that it was not nights as well as day times. Mr. Jackson left on Saturday evening for South Dakota, where he has two weeks of institute work.

The big Marshfield fair opened on Tuesday and it is understood that they are going to have the best fair this year they have ever had. If you want to attend the fair do not forget that Thursday is Grand Rapids day and that a special train will be run up there for the accommodation of people residing in the south end of the county. The train will leave this city on the Northwestern at 8:30, so that visitors will be able to spend the whole day there, as the train will not leave until evening.

Ned Langer, who has been running the Bijou theatre for some time past, has left. Ned made quite a "splash" when he struck town last spring, and gave us to understand that he was going to revolutionize the moving picture business in this city, but things have been running along in about the same old rut as they had been for a number of years past. When he left, however, he did it in a very quiet and unobtrusive manner; so quiet, in fact, that some of his friends were entirely unaware of his departure until it was too late to bid him good bye.

Will Lyons of Traverse City, Michigan, shook hands with his numerous friends about town on Saturday and Sunday. Will formerly lived in this city, at which time he was in the employ of the government as mail carrier, but left here about five years ago for the west. Not liking the conditions there he returned to this part of the country and located at Kalamazoo, Mich., where he was still working for the government. Some time ago he left his government job and went on the road as traveling salesman, and reports that he likes his work well and is getting along nicely. Will noticed many changes about the city since he left here five years ago.

Miss Beulah Levin spent a few days on the farm with Nellie Hannibal.

Mrs. Jane Granger returned on Saturday from an extended visit at Minnetonka.

Mrs. Gus Neiman and children have returned from a visit with relatives in Merrill.

Mr. and Mrs. J. J. Emmerich of Cranmore were in the city shopping on Monday.

J. P. Johnston and Emmet McCarthy enjoyed a trip through the country Sunday.

Attorney George L. Williams made a business trip to Milwaukee the fore part of the week.

Mrs. M. F. Dziadul, of Chicago, spent a week visiting her sister, Mrs. John Kollenda.

Miss Pauline Soden from Chicago, spending two weeks, visiting her Aunt Mrs. John Kollenda.

Miss Katherine Carr of Milwaukee is spending a week in this city the guest of Miss Inez Reichel.

Mr. and Mrs. Frank Swartling and daughter Irene of Marshfield spent Sunday at the Benson home.

Mr. and Mrs. John Godfrey of Milwaukee spent Sunday in this city guests at the Louis Reichel home.

Miss Marie Yousko spent a week visiting with her sister Mrs. C. D. Searls and also attended the cranberry convention.

James Garrett of Milladore was in the city on Saturday on his way to Millston to spend several days with Mrs. Garrett.

Mr. and Mrs. Frank Sager and Miss Fannie Guiney of Tripoli, Iowa, are visiting at the E. M. Guiney home on the east side.

Mrs. A. Carlsrud of Milwaukee is in the city a guest at the home of Mr. and Mrs. W. C. Weisel, she being a sister of Mr. Weisel.

Mr. and Mrs. E. E. Ames left on Monday for Marshfield where they will visit with friends and attend the fair during the present week. Mr. Ames being president of the fair association.

Roy Farish came down from Sherry on Saturday and visited his people in this city for a day. He returned on Sunday accompanied by Misses Jessie and Beulah Farish and Miss Laurie Drumb, who will visit there for a few days.

Mr. Lynn Renne, Mr. and Mrs. H. M. Sanderson, Mrs. J. M. Sanderson left Shawano Sunday morning for a ten day motor trip. They will attend the fair at Portage, then on to the Deils, Baraboo, and other places of interest in the state.

Mr. and Mrs. A. Marceneau and daughter returned on Saturday from Canada where they had spent a couple of months. Mr. Marceneau had not been back to his old home for fifty years and he found very few people there that he knew in former years.

Mrs. Edw. Bergan and son Edward, who have been visiting at Grand Rapids for the past two months left Saturday for Chicago where she expects to make a short visit before she leaves for her home at South Bend, Indiana. Mrs. Bergan will be remembered as Rose Yousko.

## THE NEW EUGENIC LAW.

Will Go Into Effect In This State On January 1, 1914.

The new Wisconsin law on eugenics, which goes into effect January 1, 1914, contains many particulars of large popular interest, especially to persons projecting matrimony. Contrary to a general belief brides-to-be are exempted. Men only must undergo examination.

All male persons making application for license to marry must, according to the act, within fifteen days prior to application, be examined as to the existence or non-existence of any venereal disease, and it is unlawful for a county clerk to issue a license to marry to any person who fails to present and file with him a certificate setting forth that he is "free from acquired venereal diseases, physical examination and by the application of the recognized clinical and laboratory tests of scientific research." The certificate must be made by a licensed physician and be filed with the application for a license to marry.

Examiners must be physicians duly licensed and at least thirty years of age. The fee for examination, to be paid by the applicant before certificate is granted, cannot exceed \$3. Any county physician upon request, must make the examination and issue the certificate, if it can properly be done without charge to the applicant, if he is indigent. Whenever there is disagreement regarding the findings of any medical examination, tests are to be made in the state laboratory of hygiene.

In any case wherein the certificate of health is refused and the applicant files with the county clerk an affidavit setting forth the fact that he has not had to fail an impartial examination and that he is entitled to such certificate of health, it is the duty of the clerk to certify the proceedings at once to the county court without formality or expense to the applicant. Then the application must be heard by the judge at the earliest time practicable, without a jury in court or in chambers, during term or in vacation as the case may be. A copy of an order of the judge that the applicant is entitled to a certificate of health shall have force and effect.

Any person, a resident of this state, who with intent to evade the provisions of this law goes into another state and there has a marriage solemnized and who within one year from date of that marriage returns and resides in this state, shall upon information or knowledge to the district attorney be required to file with the county clerk a certificate of examination. Any person violating this provision is to be punished by imprisonment in jail not less than thirty days nor more than one year.

Any county clerk who unlawfully issues a license to marry to any person who fails to present a certificate or any party or parties having knowledge of any matter relating or pertaining to the examination of any applicant for license to marry, who discloses the same, or any portion thereof, may be guilty of a felony, and punished by imprisonment not less than one year or more than five years.

Any person who knowingly and willfully makes a false statement in a certificate shall be guilty of perjury and upon conviction be punished by perjury, and a conviction under this subsection shall revoke the license of such physician to practice in this state.

## A Voice For The Dog (Chicago Inter Ocean.)

A mad dog does not attack!  
A mad dog does not attack!  
A mad dog does not froth at the mouth!

A mad dog will not fight back even when cornered!

The symptoms usually described as those of rabies are only those of a simple form of epilepsy or nervous disorder and they are not contagious.

Hydrophobia is not caused by heat; epilepsy is. Hydrophobia is only communicable by a bite; epilepsy is not communicable at all. Dogs suffering from hydrophobia do not froth at the mouth; epileptics do.

The same author, and I refer to Dr. Wesley Mills, says: "Discrimination lies between this disease and epilepsy, or fits of various kinds, arising from the heat of the sun as dogs run the streets." Again he says: "Fear of water is a pure hypothesis so far as the dog is concerned."

Let a poor little house dog, unaccustomed to roughing it for himself, become nervously excited by the din of the street, or overheated on a hot summer day, and some fool raises the cry of mad dog and shies a brick. The dog runs and that is enough. Men are but savages under restraint and anything that runs must necessarily be guilty, and soon a howling mob is in pursuit and the dog is lucky indeed that escapes.

Every large city has a dog pound; hundreds of men are employed as dog catchers. They are frequently bitten. Did any of them ever have hydrophobia?

Hundreds of men in this country keep dog kennels and raise dogs for sale; other hundreds make a business of training dogs for field trials, hunting and performing. They are frequently bitten. Did any of them ever have hydrophobia?

Give plenty of water. Give the dog a chance.

## NO JOKING ABOUT IT.

"Joy riding" with a "borrowed" automobile, motorcycle or other motor vehicle isn't going to be quite so safe or so funny—if the rider is caught—in Wisconsin it's used to be. Under the old law, a person taking and using a motor vehicle without the consent of the owner was subject to a comparatively light penalty in the form of a fine or a short term of imprisonment in the county jail. Under the new automobile law, however, passed by the legislature and signed by Governor McGovern, Wednesday, an offender of this class may be sent to the state prison for as much as five years.

That taking a motor vehicle and using it without the owner's consent is made a serious crime is indicated by the law, which provides:

"Any person who shall take, use or operate any automobile, motorcycle, or other similar motor vehicle, upon any public highway of this state without the consent of the owner thereof shall, upon conviction thereof, be punished by imprisonment in the state prison not more than five years, or by imprisonment in the county jail or workhouse not more than one year, or by a fine of not more than \$1,000, or by both such fine and imprisonment in the discretion of the court."

That ought to hold the joyriders for a while!

A blind fawn was captured near Arad one day last week by Chas. Levora. The fawn was a yearling and was blind in both eyes. It was turned over to Game Warden Hill of Friendship.

Legal blanks for sale at this office.

## UNIVERSITY NOTES.

In making our first appearance before the readers of this Journal, we presume that it will be best to introduce ourselves, to tell you who we are, why we are here and what we are going to do while we stay.

The extension division of the University of Wisconsin has created a bureau of health instruction upon the assumption that the people of the state are eager to secure, as easily as possible, the information which will best reasonably prolong life and the best available health. From week to week this column will be devoted to a discussion of live subjects of every-day health and disease.

Your editor has contracted for this service upon faith that it's going to be worth the space that is devoted to it. If you find it so, let him and us know. If it does not fulfill the need, let us know what you want and we will attempt to supply your want thru this column, or, if necessary and advisable, by mail.

## Summer Diarrhea.

Summer diarrhea is responsible for the death of a large number of infants. It is an inflammation of the bowels due, for the most part, to food which has been spoiled by the hot weather.

Warm milk offers ideal conditions for the growth of germs. Inasmuch as milk is the chief food of babies and young children, it is imperative that parents exercise the greatest care in its safe care and handling.

Ice is more than a luxury. Germs do not multiply rapidly, if at all, in low temperatures. Milk which is to be consumed raw should be rapidly chilled after milking and kept cool until just before it is warmed for the child's bottle or cup. Ice preserves life as well as food and it should be considered as much a necessity during hot weather as coal and wood are in winter.

Some cellars are as cold and therefore as good as iceboxes. Indeed, many iceboxes are so poorly insulated and ventilated as to make them unsafe. It may seem silly to suggest that an icebox without ice is no longer doing its chief service; and yet housewives occasionally let the supply of ice run so low as not to keep the interior of the box at a safely low temperature.

There are two chief points in treatment of diarrhea: first, clearing the bowels of irritating substances; second, starving the child for 24 hours. This may seem cruel, but the baby will know his appetite for rapid improvement in symptoms. Don't give upon the prescription of a good physician. To prevent recurrence, complications, and bad after effects, secure and follow most carefully, directions for feeding and otherwise properly caring for the baby.
